## FINAL YEAR PROJECT

---

- **Project name:** Productivity Manger App.
- **Technology:** Android Application.
- **Field of work:** Increasing personal productivity via mobile application.
- **Description:** Allocating time for projects and keeping track of progress and time spent on work. Projects are divided into sub projects and corresponding subprojects are divided into discrete tasks. Time is allocated for these tasks; buffer period is allocated for sub projects whose health acts as feedback about how well the task is going according to planned time.
- **Key features:** Dynamic shifting of schedule, using buffer to complete remaining task, foreground timer to keep track of actual work.
